Hot stone massage combines nature's energy with your body, using gently heated volcanic stones to ease muscle tension. The warm stones stimulate circulation, melt away stress, and induce a deep sense of peace.

Let your soul and body be reborn with this healing warmth. How about taking a step into deep relaxation with a hot stone massage?

DEEP TISSUE MASSAGE:

Deep tissue massage targets tension and pain deep within the muscles. Strong, focused pressure releases built-up tension, enhances circulation, and frees stagnant energy. Ideal for athletes or those with intense physical demands, this massage promotes deep muscle relaxation and improves joint mobility.

SHIATSU MASSAGE:

Shiatsu is a Japanese therapy that uses finger and palm pressure along the body's energy lines, combined with stretching. By balancing the body's energy flow, it provides both physical and mental relaxation. This massage is particularly effective for relieving stress, muscle tension, and pain.

ANTI-STRESS MASSAGE:

Anti-stress massage helps you release the tension and stress of modern life. Light and deep pressures work to ease muscle tension and promote full-body relaxation. The techniques used calm the mind, stimulate blood circulation, and trigger endorphin production. This massage renews both body and mind, making it especially beneficial for those dealing with a fast-paced work life, daily stress, or anxiety.

TURKISH HAMMAM RITUAL:

The Turkish Bath Scrub and Foam is one of the most relaxing and special parts of the traditional Turkish bath ritual. After your body relaxes under hot steam, a gentle scrubbing with a kese (scrub mitt) removes dead skin cells, leaving your skin fresh and smooth. This is followed by a foam massage that nourishes, hydrates, and relaxes your skin.

SWEDISH MASSAGE:

Swedish Massage is one of the most popular and well-known massage techniques worldwide, renowned for its gentle, flowing movements that promote relaxation. Combining long, soft strokes, kneading, tapping, and pinching, this massage relieves muscle tension and stiffness, improves blood circulation, and supports the body's natural healing processes. It is particularly beneficial for reducing stress and achieving mental relaxation. The soothing effects of Swedish massage ease your muscles, release stored energy, and calm your mind, providing a deep sense of peace for both body and soul.

Paid services are available by reservation, subject to availability. Massage appointments can only be made at the SPA Center reception. Our operating hours are from 09:00 to 20:00.
